Office of General Counsel

Release of Materials Submitted to the Efficiency Awards Committee

25X1A9a

1. The information available to the Office of General Counsel indicates that the materials entitled "Per Diem Calculator", submitted by you to the Efficiency Awards Committee for adoption by the Agency, have been evaluated. The Committee has determined that the adoption of your suggestion would not be expedient. Further, at your request, [REDACTED] Recorder, Efficiency Awards Committee, presented the calculator to three officers of the Veteran's Administration for evaluation. These persons, chosen for their qualifications as authorities on travel and travel reimbursement, concluded that use of the suggested device by travelers and travel clerks would not prove feasible.

2. The foregoing determinations having been made, the materials submitted by you, together with the two working models titled "Per Diem Calculator", are returned to you for whatever use you may desire to make of them. This release is granted subject to the right of the Federal Government of the United States to claim and receive, at any time, a non-exclusive license to use for Government purposes.
